

IMPEX COLOR s.r.l.

SILCOTEX – S40

SEALER – SALT PROOF WITH SILOXANE BASE IN SOLVENT.

DESCRIPTION

With high penetration and sealing power, it is indicated for making absorption uniform and in-depth sealing of very absorbent and powdery mineral surfaces. Prevents soluble salt efflorescence from the base. Can also be used on existing water based paint after checking the anchorage.

CHARACTERISTICS AND TECHNICAL DATA

Drying time	: Around 4 hours, another coat can be applied after 12 hours.
Specific weight	: 0.890 gr./l. at about 20°C
Yield	: about 6 – 10 sq.m./l. based on base absorption.
Application	: By brush or roller, normally one evenly spread coat is sufficient, in the event of high absorption apply a second coat while the first is still fresh. Any mould or moss contaminated surfaces must be treated with our BONIFICANTE ANTIMUFFA 105.
Dilution	: ready to use.
Colour	: transparent.
Conservation	: store in a cool, dry place, far from source of heat.
