MIRAGE è una pregiata finitura decorativa per interni, a base di resina acrilica e cariche ad effetto metallizzato che consentono di ottenere soluzioni cromatiche vellutate dal mutevole gioco di luce.

DATI TECNICI:

Colore delle basi: oro e argento.

Resa: 8 – 10 m²/Kg circa.

Caratteristiche: prodotto per interno.

Confezioni: da 5 Kg e 1 Kg.

Mirage può essere colorato con coloranti a tintometro.

Conservare in ambienti asciutti a temperature comprese fra +5 °C e +35 °C.

Le tinte qui riprodotte si possono applicare solo all'interno e sono da considerarsi indicative.

MIRAGE is an interior precious decorative finishing, characterized by an acrylic resin base and metallic pigments that guarantee velvet colour solutions with a changing light effect.

TECHNICAL DATA:

Colour of the bases: gold and silver.

Yield: about 8 – 10 sq.m/Kg.

Characteristics: product for interiors.

Package: 5 Kg and 1 Kg.

Mirage can be coloured with tinting system colourants.

Store in a dry place at a temperature between +5 °C and +35 °C.

The colours reproduced here are solely for internal use and are to be considered indicative.

MIRAGE est une précieuse finition décorative pour intérieurs, à base de résine acrylique et charges à effet métallisé qui permettent d'obtenir des solutions chromatiques veloutées au jeu changeant de lumière.

PARAMÈTRES TECHNIQUES:

Couleur des bases: or et argent.

Rendement: environ 8 – 10 m²/Kg.

Caractéristiques: produit pour intérieur.

Emballage: de 5 Kg et 1 Kg.

Mirage peut être colorée par des colorants à tintomètre.

Conserver dans des lieux secs, aux températures comprises entre +5 °C et +35 °C.

Les couleurs reproduites ici peuvent être appliquées seulement à l'intérieur et ils sont à se considérer indicatives.

PREPARAZIONE DEL SUPPORTO:

su superficie liscia, sana e asciutta, applicare a pennello o rullo 2 mani di Quarz Decor 306 bianco o in tinta della finitura.

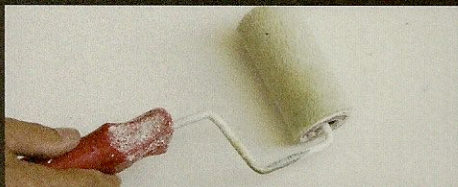

PREPARATION OF THE SUPPORT:

on a smooth, dry and well-preserved surface, apply 2 coats of Quarz Decor 306, in white colour or according to the finishing shade, by means of a brush or a paint roller.

PRÉPARATION DU SUPPORT:

sur une surface lisse, intacte et sèche, appliquer, à pinceau ou rouleau, 2 couches de Quarz Decor 306 blanc, ou de la même couleur de la finition.

APPLICAZIONE MIRAGE:

Applicare con rullo a pelo corto una prima mano di Mirage diluito al 5 – 10%. Quando la prima mano è completamente asciutta, applicare una seconda mano di Mirage (non diluito) con spatola piccola in acciaio inox o di plastica, in modo non omogeneo e a poco spessore.

MIRAGE APPLICATION:

Apply a first coat of Mirage 5-10% diluted by means of a short naps paint roller. When the first coat has completely dried, apply a second coat of Mirage (without dilution) by means of a small stainless steel or plastic trowel. The application shall not be uniform nor thick.

APPLICATION MIRAGE:

Appliquer avec rouleau à poil court une première main de Mirage diluée au 5 - 10%. Lorsque la première main est complètement sèche, appliquer une seconde main de Mirage, (pas diluée), avec une petite spatule en acier inox ou en plastique, de façon pas homogène et à peu d'épaisseur.

Dopo alcuni minuti ripassare sul prodotto applicato con la stessa spatola in maniera piatta, schiacciando leggermente il prodotto con movimento circolare.

After a few minutes, go over the surface by means of the same trowel according to a flat painting style, pressing the product slightly on a circular movement.

Après quelques minutes repasser sur le produit appliqué avec la même spatule en manière plate, en écrasant le produit légèrement par un mouvement circulaire.

MIRAGE RUSTICO è una pregiata finitura decorativa per interni, a base di resina acrilica, cariche ad effetto metallizzato e granelli di marmo fine che consentono di ottenere soluzioni cromatiche ad effetto "rustico" dal mutevole gioco di luce.

DATI TECNICI:

Colore delle basi: oro e argento.

Resa: 100 – 150 gr/m² circa.

Diluizione: 5 – 10 % con acqua pulita.

Caratteristiche: prodotto per interno.

Confezioni: da 5 Kg e 1 Kg.

Mirage Rustico può essere colorato con coloranti a tintometro.

Conservare in ambienti asciutti a temperature comprese fra +5 °C e +35 °C.

Le tinte qui riprodotte si possono applicare solo all'interno e sono da considerarsi indicative.

MIRAGE RUSTICO is an interior precious decorative finishing, characterized by an acrylic resin base, metallic pigments and grains of fine marble that guarantee "rustic" effect colour solutions with changing light.

TECHNICAL DATA:

Colour of the bases: gold and silver.

Yield: about 100 – 150 gr/sq.m

Dilution: 5 – 10% with clean water.

Characteristics: product for interiors.

Package: 5 Kg and 1 Kg.

Mirage Rustico can be coloured with tinting system colourants.

Store in a dry place at a temperature between +5 °C and +35 °C.

The colours reproduced here are solely for internal use and are to be considered indicative.

MIRAGE RUSTICO est une précieuse finition décorative pour intérieurs, à base de résine acrylique, charges à effet métallisé et grains de marbre fin qui permettent d'obtenir des solutions chromatiques à effet "rustique" au jeu changeant de lumière.

PARAMÈTRES TECHNIQUES:

Couleur des bases: or et argent.

Rendement: environ 100 – 150 gr/ m².

Dilution: 5 – 10 % avec de l'eau propre.

Caractéristiques: produit pour intérieur.

Emballage: de 5 Kg et 1 Kg.

Mirage peut être colorée par des colorants à tintomètre.

Conserver dans des lieux secs, aux températures comprises entre +5 °C et +35 °C.

Les couleurs reproduites ici peuvent être appliquées seulement à l'intérieur et ils sont à se considérer indicatives.

PRÉPARATION DU SUPPORT:

sur une surface lisse, intacte et sèche, appliquer, à pinceau ou rouleau, 2 couches de Quarz Decor 306 blanc, ou de la même couleur de la finition.

APPLICAZIONE MIRAGE RUSTICO:

Applicare con pennello per Mirage Rustico una prima mano in modo non uniforme.

MIRAGE RUSTICO APPLICATION:

Apply a first non-uniform coat with a brush suitable to Mirage Rustico application.

APPLICATION MIRAGE:

Appliquer avec pinceau pour Mirage Rustico une première main de façon pas uniforme.

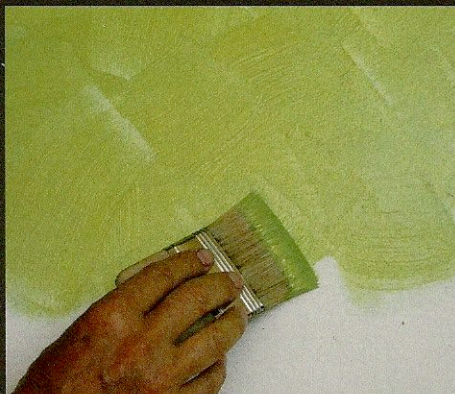

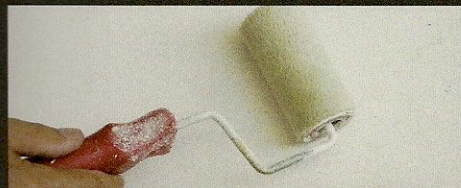

Dopo circa 1 – 2 m² a seconda dell'assorbimento e della temperatura, ripassare a pennello scarico la superficie, creando così l'effetto desiderato.

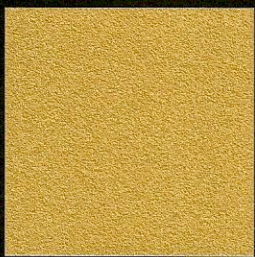

After 1 – 2 sq.m approximately, depending on absorption and temperature, go over the surface with a discharged brush obtaining the desired effect.

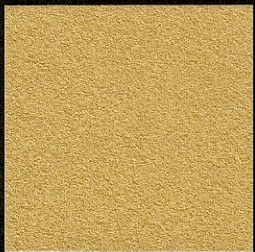

Après environ 1 - 2 m², selon l'absorption et la température, repasser la surface à pinceau déchargé, en créant ainsi l'effet désiré.
